SUMMARY

Frontend Developer (Fresher) and MCA final-year student with hands-on experience building responsive, component-based React.js applications using JavaScript (ES6+), HTML5, and CSS3. Delivers frontend architecture, UI/UX implementation, state management, and REST API integration, deploying projects on Netlify and Vercel. Completed Quora-style and e-commerce frontends featuring client-side routing, authentication flow, and global state management.

EDUCATION

Master of Computer Applications (MCA) , Dr. Babasaheb Ambedkar Marathwada University (BAMU) India	2026
Bachelor of Science (B.Sc.) – Mathematics in Mathematics, Dr. Babasaheb Ambedkar Marathwada University (BAMU) India	2023

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, React Router, Context API
- **Styling & UI:** Tailwind CSS, Bootstrap, Responsive Design, Mobile-First Development, Accessibility (ARIA basics)
- **State & Data:** Component State Management, Conditional Rendering, REST API Integration
- **Tools:** Git, GitHub, Vite, Chrome DevTools, Debugging
- **Deployment:** Netlify, Vercel
- **Soft Skills:** Problem-Solving, Ownership, Attention to Detail, Communication, Collaboration

PROJECTS

Quora-Style Frontend Application

- Developed a production-ready Quora-style frontend using React with reusable, modular components and clean component architecture.
- Implemented dynamic routing, conditional rendering, and interactive UI features such as expand/collapse content, hover states, and active states.
- Specialized in responsive design, layout consistency, and UX polish aligned with real-world frontend standards.
- Improved maintainability and scalability using component-based design principles.

BookNest – Frontend E-commerce Application

- Built a frontend-only e-commerce application with authentication flow, protected routes, product search, cart management, and order history.
- Implemented global state management using Context API and handled persistent data using localStorage.
- Designed responsive, reusable UI components using Bootstrap and modular CSS.
