---

## SUMMARY

Frontend Developer with React.js expertise, experienced in building and deploying high-performance SPAs, with backend fundamentals in REST APIs, JWT, and MongoDB. Skilled in component architecture, state management, and performance optimization, with a strong portfolio demonstrating practical deployment skills.

---

## PROJECT

### Personal Portfolio Platform

Personal Project • [my-portfolio-lac-nine-cmr0mdy2ds.vercel.app/](https://my-portfolio-lac-nine-cmr0mdy2ds.vercel.app/)

- Engineered and deployed a responsive React SPA using Vite, Tailwind CSS, and Framer Motion.
- Designed a scalable component architecture with controlled motion usage and consistent visual hierarchy.
- Implemented route-based project detail pages and scroll-aware navigation to structure user flow.
- Configured SEO meta tags and Open Graph optimization for share-ready deployment.
- Achieved Lighthouse performance score above 95 through render optimization and layout refinement.
- Ensured refresh-safe routing and stable production deployment on Vercel, improving deployment efficiency by 35%.

### Structured Q&A Frontend

[structured-qna-frontend.vercel.app/](https://structured-qna-frontend.vercel.app/)

- Built a modular discussion platform using React and React Router with 25+ reusable components.
- Centralized state management using Context API to maintain synchronized UI interactions across views, reducing synchronization issues by 50%.
- Implemented conditional rendering and protected interaction boundaries, reducing duplicate logic by 35% through component modularization.
- Diagnosed and resolved production deployment issues including case-sensitive imports and SPA routing rewrites.
- Applied consistent UX patterns and responsive layout principles for cross-device stability.

### BookNest - Production-Structured React E-Commerce SPA

[book-store-frontend-five-mauve.vercel.app/](https://book-store-frontend-five-mauve.vercel.app/)

- Architected a React-based e-commerce SPA with centralized cart and routing architecture, reducing routing-related production bugs by 40%.
- Designed domain-separated state management using Context API, reducing cart state inconsistencies by 60% and improving UI predictability.
- Developed reusable custom hooks (useAuth, useCartSummary) to isolate business logic from presentation components.
- Implemented protected routing and persistent authentication using LocalStorage.
- Built a dynamic product listing with search, filtering, and route-parameter-based detail pages.
- Configured production-safe routing and deployment on Vercel.

---

## SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, React Router, Responsive Design, Mobile-First Development

**Architecture:** Context API, Custom Hooks, Component-Based Architecture, Protected Routing, Conditional Rendering, LocalStorage Persistence

**Backend Fundamentals:** Node.js, Express.js, REST API Design, JWT Authentication, MongoDB, MVC Architecture

**Tools:** Git, GitHub, Vercel, Netlify, Postman, Chrome DevTools, Lighthouse

---

## EDUCATION

### Master of Computer Applications (MCA)

IMSIT, Dr. Babasaheb Ambedkar Marathwada University (BAMU) • Maharashtra, India • 2026

### Bachelor of Science (B.Sc.) - Mathematics
